
Agricultural Outlook Forum 2004

**February 19-20, 2004
Arlington, Virginia**

Ensuring a Healthy Food Supply

Shoppers demand affordable food that's safe, healthy and right for their family's diet.

Foreign consumers, too, have high standards for American-grown foods. Meeting their expectations poses challenges for farmers and ranchers, the food industry and government.

At Agricultural Outlook Forum 2004, you'll hear about the latest developments in food safety, health concerns and innovative products. The program also features in-depth analysis of 2004 commodity planting, trade and market prospects. And you'll receive new 10-year commodity projections from USDA.

Networking opportunities abound at this popular event. Register online today. For program updates, send your name and e-mail address to agforum@oce.usda.gov.
